## PROFESSIONAL SUMMARY

Computer Engineering student with experience in Full-Stack Development and AI-assisted applications. Skilled in Java, Python, React.js, Next.js, SQL, and modern web technologies. Built projects in civic issue management, personal finance, and healthcare domains, incorporating data analytics, real-time systems, and intelligent automation. Currently building foundations in Machine Learning and computer vision through project work and self-study.

## EDUCATION

MIT Academy of Engineering, Pune

2024-2028

B.Tech in Computer Engineering

CGPA: 7.7/10

## SKILLS

Programming Languages:

Java, Python, JavaScript, SQL, C

Frontend Development:

React.js, Next.js, HTML, CSS, Tailwind CSS

Backend & Databases:

Flask, Firebase, MySQL, MongoDB

AI & Data Analysis:

Pandas, NumPy, Matplotlib, Machine Learning Fundamentals

Core Computer Science:

Data Structures & Algorithms, OOPs, DBMS

## PROJECTS

### Parivartan – AI-Powered Civic Issue Management Platform

Tech Stack: Next.js, Tailwind CSS, shadcn/ui, Firebase, Gemini API, Groq API

- Developed an AI-assisted platform connecting citizens, municipal workers, and government authorities for end-to-end civic issue management.
- Implemented geo-tagged complaint reporting with image uploads and real-time issue tracking across role-based dashboards.
- Leveraged LLM APIs for intelligent issue categorization, priority scoring, and automated routing to relevant departments.
- Designed a YOLOv8-powered CCTV monitoring framework to automatically detect civic issues such as potholes, garbage accumulation, and infrastructure damage, reducing dependence on manual complaint reporting.

### DhanSathi – AI-Powered Personal Finance Assistant

Tech Stack: Next.js, Tailwind CSS, shadcn/ui, Algorand, Pera Wallet, Firebase, Gemini API

- Built a personal finance platform for tracking and analyzing bank transaction data.
- Implemented automated expense categorization and spending analytics dashboards.
- Integrated AI-driven Savings Agent and Insight Agent workflows for personalized financial insights.
- Integrated Algorand blockchain and Pera Wallet for secure, tamper-proof storage and verification of financial records.

## EXPERIENCE

### Web Development Intern | Teachnook (Remote)

1 Nov 2024 – 30 Nov 2024

- Built responsive and interactive web applications using React.js, JavaScript, HTML, and CSS.
- Implemented reusable UI components and enhanced user experience through modern frontend development practices.
- Integrated external APIs and optimized application performance for faster load times and smoother interactions.
- Collaborated in a team environment using Git and GitHub for version control and project management.

## Achievements

- Solved 250+ DSA problems across coding platforms; achieved a 2★ rating on CodeChef.
- Finalist, RIFT Hackathon Pune — Ranked among the top 3 teams in the domain category.
- Received newspaper recognition and selection to the Mumbai Kabaddi Training Camp for ZP-level Kabaddi performance.
